**ANNUAL STATISTICAL REPORT  
FISCAL YEAR 2005-2006  
NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT  
CENTERS**

**INTRODUCTION:**

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATC). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW).

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year 2006 for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c reflects the number of persons served by the three ADATCs, for two populations of special interest, pregnant women and injection drug users, shown by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years. And Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice, while Table 6b provides any drug of choice for each of the three Alcohol & Drug Abuse Treatment Centers.

**ADMISSIONS:**

Admissions have increased by 8.1%, from 3,565 in fiscal year 2005 to 3,855 in fiscal year 2006.

## **DISCHARGES:**

During fiscal year 2006, there were a total of 3,886 direct discharges, indirect discharges, deaths or transfer-outs. Sixty eight percent were direct discharges. The percentage of indirect discharges, clients discharged while on some type of leave placement, was less than 1%. There were no deaths reported during FY06.

## **PERSONS SERVED:**

The statistic “Persons Served” is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were a total of 4,003 persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year 2006.

The number of persons served per 100,000 population continues to be significantly lower in the South Central Region, at 19.0, than in the remaining three regions, in which each of the ADATCs are located. The Western, Eastern, and North Central regions’ rates are 46.0, 52.4, and 57.5 persons served per 100,000 population respectively. The “Persons Served” rate ranges from a high of 175.2 in Dare County to a low of 3.0 in Bladen County, with an overall statewide rate of 45.3.

The average length of stay in FY06 was 13.6 days, a 2.7 day decrease from 16.3 days in FY05. The length of stay decreased at Black Mountain by 3.9 days. Butner’s length of stay decreased by 2.8 days. At Jones, the length of stay increased by 0.3 days.

About thirty-eight percent (37.8%) of persons served at the ADATCs in FY06 were women, a decrease from 39.4% in FY05. The percentage of nonwhite persons served at ADATCs was 30.2% in FY06, decreasing slightly from 32.7% in FY05 .

For fiscal year 2006, 40.8% of the persons served reported cocaine as their primary drug of choice and 38.1% reported alcohol. In FY06, cocaine, as a primary drug of choice, decreased by 3.2% and alcohol, as a primary drug of choice, increased slightly by 0.4% compared to FY05. Overall, 68.2% of persons served reported abusing cocaine, 65.1% alcohol, and 38.6% marijuana in FY06.
